Veneer Visual Analyzer R5 - Composing

Analyzer with high-accuracy camera system and industrial light system to optimize defect detection for core veneer composing.

BENEFITS

- Increase veneer recovery
- Increase production efficiency

TECHNICAL DETAILS

	Dark	Open
Veneer thickness (mm)	0.5 – 4.2	0.5 – 4.2
Available sizes (ft)	5 - 10	5 - 10
Open defects (e.g. Hole, Fishtail)	●	●
Dark defects (e.g. Dark wane, Dark knot)	●	○
