Veneer Moisture Analyzers R5 - Lay-up

Analyzer with accurate moisture analysis of the veneers based on the contact brush moisture measuring to control the moisture of the veneer sheets going to the gluing process.

BENEFITS

- Improve production efficiency
- Increase profits

TECHNICAL DETAILS

Available sizes (ft)	5 - 10
Moisture Range (mc)	5% - 20%
Moisture Accuracy (mc)	±3%
Sensors (pcs)	8 - 16
Face Veneer Thickness (mm)	0.5 – 4.2
